LEVY OF STAMP DUTY ON ALLOTMENT*

Mutual fund units issued against Purchase transactions (whether through lump-sum investments or SIP or STP or switch-ins or reinvestment under IDCW Option) would be subject to levy of stamp duty @ 0.005% of the amount invested. The rate and levy of stamp duty may vary as amended from time to time.

*Pursuant to Notification No. S.O. 4419(E) dated December 10, 2019 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, and subsequent Notification dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India.

The stamp duty will be deducted from the net investment amount i.e. gross investment amount less any other deduction like transaction charge. Units will be created only for the balance amount i.e. net investment amount as reduced by the stamp duty. The stamp duty will be computed at the rate of 0.005% on an inclusive method basis as illustrated below:

For instance: If the investment amount is Rs. 100,100 and the transaction charge is Rs. 100, the stamp duty will be calculated as follows: $((\text{Investment Amount} - \text{Transaction Charge}) / 100.005) * 0.005 = \text{Rs. } 5$. If the applicable Net Asset Value (NAV) is Rs. 10 per unit, then units allotted will be calculated as follows: $(\text{Investment Amount} - \text{Transaction Charge} - \text{Stamp Duty}) / \text{Applicable NAV} = 9,999.50$ units.

A. RISK FACTORS

Standard Risk Factors:

- Mutual funds and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the Fund will be achieved.
- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down.
- Past performance of the Sponsor/AMC/ Fund does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of 1 Lac made by it towards setting up the Fund.
- The Scheme under this Scheme Information Document is not guaranteed or assured return scheme.
- Investors may note that AMC/Fund Manager's investment decisions may not be always profitable as the actual market movement may be at variance with the anticipated trend. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme's portfolio due to the absence of a well developed and liquid secondary market for debt securities would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in the Scheme's portfolio

GENERAL RISK FACTORS

- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The NAV of the Units of the Scheme can go up or down because of various factors that affect the capital markets in general.
- As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Fund for redemption of Units may be significant in the event of an inordinately large number of redemption requests or restructuring of the Scheme. In view of the above, the Trustee has the right, in its sole discretion, to limit redemptions (including suspending redemptions) under certain circumstances.
- At times, due to the forces and factors affecting the capital market, the Scheme may not be able to invest in securities falling within its investment objective resulting in holding the monies collected by it in cash or cash equivalent or invest the same in other permissible securities / investments amounting to substantial reduction in the earning capability of the Scheme. The Scheme may retain certain investments in cash or cash equivalents for its day-to-day liquidity requirements.

- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive returns. This may increase the risk of the portfolio.
- Investment strategy to be adopted by the Scheme may carry the risk of significant variance between the portfolio allocation of the Scheme and the Benchmark particularly over a short to medium term period.
- Performance of the Scheme may be affected by political, social, and economic developments, which may include changes in government policies, diplomatic conditions and taxation policies.

Scheme Specific Risk Factors:

A) RISK FACTORS ASSOCIATED WITH INVESTING IN EQUITIES AND EQUITY RELATED INSTRUMENTS

- Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis. Investments in equity shares and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risks.
- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges. Investment in such securities may lead to increase in the scheme portfolio risk.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges and may lead to the Scheme incurring losses till the security is finally sold.

B) RISK FACTORS ASSOCIATED WITH INVESTING IN FIXED INCOME SECURITIES

The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market instruments, will be affected by changes in the general level of interest rates. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

Money market instruments, while fairly liquid, lack a well developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.

Investments in money market instruments involve credit risk commensurate with short term rating of the issuers.

Investment in Debt instruments are subject to varying degree of credit risk or default (i.e. the risk of an issuer's inability to meet interest or principal payments on its obligations) or any other issues, which may have their credit ratings downgraded. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security values. The Investment Manager will endeavour to manage credit risk through in-house credit analysis. This may increase the risk of the portfolio. The Investment Manager will endeavour to manage credit risk through in-house credit analysis.

Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the

rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.

Different types of fixed income securities in which the Scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, AAA rated bonds are comparatively less risky than AA rated bonds.

The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.

As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates and are subject to issuer default risk. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio. Zero coupon or deep discount bonds are debt obligations that do not entitle the holder to any periodic payment of interest prior to maturity or a specified date when the securities begin paying current interest and therefore, are generally issued and traded at a discount to their face values. The discount depends on the time remaining until maturity or the date when securities begin paying current interest. It also varies depending on the prevailing interest rates, liquidity of the security and the perceived credit risk of the Issuer. The market prices of zero coupon securities are generally more volatile than the market prices of securities that pay interest periodically.

Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.

Prepayment Risk: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the Scheme to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

Settlement risk: Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are uninvested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well developed and liquid secondary market for debt securities, may result at times in potential losses to the Scheme in the event of a subsequent decline in the value of securities held in the Scheme's portfolio.

The Scheme at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

C) RISK FACTORS ASSOCIATED WITH INVESTMENT IN TRI-PARTY REPO:

The Fund is a member of securities segment and Triparty Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the Fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL).

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The Fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the Fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

D) RISK FACTORS ASSOCIATED WITH INVESTING IN NON-CONVERTIBLE PREFERENCE SHARES

- **Credit Risk** - Credit risk is the risk that an issuer will be unable to meet its obligation of payment of Income Distribution Cum Withdrawal and/ or redemption of principal amount on the due date. Further, for non-cumulative preference shares, issuer also has an option to not pay Income Distribution Cum Withdrawal on preference shares in case of inadequate profits in any year.
- **Liquidity Risk** - The preference shares generally have limited secondary market liquidity and thus we may be forced to hold the instrument till maturity.
- **Unsecured in nature** - Preference shares are unsecured in nature and rank lower than secured and unsecured debt in hierarchy of payments in case of liquidation. Thus there is significant risk of capital erosion in case the company goes into liquidation.

E) RELATED TO JM MIDCAP FUND

While Small & Mid-cap stocks gives one an opportunity to go beyond the usual large blue chip stocks and present possible higher capital appreciation, it is important to note that Small & Mid-cap stocks can be riskier and more volatile on a relative basis. Therefore, the risk levels of investing in Small & Midcap stocks are more than investing in stocks of large well established companies. It should be noted that over a period of time, Small, Mid and Large cap stocks have demonstrated different levels of volatility and investment returns. And it is important to note that generally, no one class consistently outperforms the others.

F) RISK RELATED TO INVESTING IN DEBT / BONDS / MONEY MARKET INSTRUMENTS / UNITS OF LIQUID / MONEY MARKET / DEBT MUTUAL FUND SCHEMES:

a) Interest Rate Risk

As with all debt securities, changes in interest rates will affect the NAVs of the Scheme as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long term securities generally fluctuate more in response to interest rate changes than of shorter-term securities. Interest

rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.

b) Liquidity or Marketability Risk

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of some of these investments. Different segments of the Indian financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The length of time for settlement may affect the Scheme in the event it has to meet an inordinately large number of redemption or of restructuring of the Scheme's investment portfolio.

c) Credit Risk

Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk, debentures are sold at a yield spread above those offered on treasury securities which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

d) Reinvestment Risk:

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested will fall.

e) Rating Migration Risk:

Fixed income securities are exposed to rating migration risk, which could impact the price on account of change in the credit rating. For example: One notch downgrade of a AAA rated issuer to AA+ will have an adverse impact on the price of the security and vice-versa for an upgrade of a AA+ issuer.

f) Basis Risk (Interest - rate movement): During the life of a floating rate security or a swap, the underlying benchmark index may become less active and may not capture the actual movement in interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio.

g) Pre-payment Risk: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

h) Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

i) Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

G) SOME OF THE OTHER RISKS OF INVESTING IN DEBT AND MONEY MARKET SECURITIES ARE :

- a. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.
- b. The Scheme at times may receive large number of redemption requests, leading to an asset- liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- c. Investment in unrated instruments may involve a risk of default or decline in market value higher than rated instruments due to adverse economic and issuer-specific developments. Such investments display increased price sensitivity to changing interest rates and to a deteriorating economic environment. The market values for unrated investments tends to be more volatile and such securities tend to be less liquid than rated debt securities.t
- d. Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Schemes.

H) RISKS ASSOCIATED WITH STOCK LENDING

In case the Scheme undertakes stock lending under the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

I) RISKS ASSOCIATED WITH INVESTING IN TRI PARTY REPO THROUGH CCIL (TREPS)

The Fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the Fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached.

The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

J) REDEMPTION RISK

As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Fund for redemption of Units may be significant in the event of an inordinately large number of redemption requests or a restructuring of the Scheme.

K) RISK RELATING TO DERIVATIVES:

i. The Scheme may use various derivative products as permitted by the Regulations. In the derivative markets there are risk factors and issues concerning the use of derivatives that investors should understand. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to manage the risks as a result of the failure of the counterparty to comply with the terms of the derivative contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives, credit risk where the danger is that of a counterparty failing to honour its commitment, liquidity risk where the danger is that the derivatives cannot be sold at prices that reflect the underlying assets, rates and indices and price risk where the market price may move in adverse fashion.

ii. The AMC, on behalf of the Scheme may use various derivative products, from time to time, in an attempt to protect the value of the portfolio and enhance Unit holders' interest. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Other risks include, the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

iii. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

- **Credit Risk:** The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a derivative transaction.
- **Market Risk:** Market movements may adversely affect the pricing and settlement derivatives.
- **Illiquidity Risk:** This is the risk that a derivative cannot be sold or purchased quickly enough at a fair price, due to lack of liquidity in the market.

L) RISK FACTORS ASSOCIATED WITH PROCESSING OF TRANSACTION THROUGH STOCK EXCHANGE MECHANISM:

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units

in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/ or BSE, on any Business Day will depend upon the modalities of processing viz. collection of application form, Account opening form, cancelled cheque, KYC documentation, order processing/ settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

M) RISK FACTORS ASSOCIATED WITH REITS AND INVITS

Price Risk: Securities/Instruments of REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. The extent of fall or rise in the prices is a fluctuation in general market conditions, factors and forces affecting capital market, Real Estate and Infrastructure sectors, level of interest rates, trading volumes, settlement periods and transfer procedures.

Interest Rate Risk: Securities/Instruments of REITs and InvITs run interest rate risk. Generally, when interest rates rise, prices of units fall and when interest rates drop, such prices increase.

Credit Risk: Credit risk means that the issuer of a REIT/InvIT security/instrument may default on interest payment or even on paying back the principal amount on maturity. Securities/ Instruments of REITs and InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.

Liquidity Risk: This refers to the ease with which securities/instruments of REITs/InvITs can be sold. There is no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the units could be infrequent. The subsequent valuation of illiquid units may reflect a discount from the market price of comparable securities/instruments for which a liquid market exists. As these products are new to the market they are likely to be exposed to liquidity risk.

Reinvestment Risk: Investments in securities/instruments of REITs and InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or Income Distribution Cum Withdrawal pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.

Legal and Regulatory Risk: The regulatory framework governing investments in securities/instruments of REITs and InvITs comprises a relatively new set of regulations and is therefore untested, interpretation and enforcement by regulators and courts involves uncertainties. Presently, it is difficult to forecast as to how any new laws, regulations or standards or future amendments will affect the issuers of REITs/InvITs and the sector as a whole. Furthermore, no assurance can be given that the regulatory system will not change in a way that will impair the ability of the Issuers to comply with the regulations, conduct the business, compete effectively or make distributions.

N) RISKS ASSOCIATED WITH SEGREGATED PORTFOLIO:

- a. Unit holders holding units of segregated portfolio may not be able to liquidate their holdings till recovery of money from the issuer.
- b. Security in the segregated portfolio may not realize any value.
- c. Listing of any units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further, trading price of units on the stock market may be significantly lower than the prevailing NAV.
- d. The trading price of units on the stock exchange may be significantly lower than the prevailing Net Asset Value (NAV) of the segregated portfolio.

B. RISK MITIGATION MEASURES FOLLOWED:

Risk management is an integral part of the investment process. In line with SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/42 dated March 18, 2016 and SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2019/104 dated October 01, 2019, the AMC has incorporated adequate safeguards for controlling risks in the portfolio construction process, which would be periodically evaluated. Online monitoring of various exposure limits

are done by the Front Office System. The system incorporates all the investment restrictions as per SEBI guidelines and 'soft' warning alerts at appropriate levels for preemptive monitoring. The system also enables identifying & measuring the risk through various risk measurement tools and analyzes the same so as to act in a preventive manner. In addition to minimize the major risks for equity schemes, the following steps are taken:

1. The AMC may also implement certain internal control procedures / risk & exposure limits etc., which may be varied from time to time
2. Market Risk / Volatility Risk –
Risk of adverse price movements in the portfolio

The portfolio would be adequately diversified to mitigate volatility depending on its respective mandate.

Volatility would be monitored with respect to the benchmark and peer set.
3. Liquidity Risk – Risk if liquidity impact of entering/exiting the underlying stocks in the portfolio. The fund manager may keep some portion of the portfolio in debt and money market instruments and/ or cash within the specified asset allocation framework for the purpose of meeting redemptions. The overall liquidity of the schemes are monitored periodically and necessary action taken on the portfolios, if required.

REQUIREMENT OF MINIMUM INVESTORS/ INVESTMENT IN THE SCHEME (Applicability for an open-ended scheme)

The Scheme/ plan (at portfolio level) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/ Plan(s). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2) (c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

DIRECT PLAN

A. Direct Plan

In accordance with Para D titled "Separate Option for direct investments" under Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012 issued by Securities and Exchange Board of India (SEBI), a separate plan for direct investments (i.e. investments not routed through an AMFI Registration Number (ARN) Holder ("Distributor") (hereinafter referred to as "Direct Plan") is available as under:

Direct Plan is only for investors who purchase/subscribe units in the Scheme directly with the Fund and is not available for investors who route their investments through a Distributor

Plans / Options / Sub-options:

All Plans / Options / Sub-Options being offered under the Scheme ("Regular Plan") will also be available for subscription under the Direct Plan. Thus, there shall be 2 Plans available for subscription under the Scheme viz., Regular Plan and Direct Plan. Portfolio of the Scheme under the Regular Plan and Direct Plan will be common.

The provisions pertaining to Minimum Subscription Criteria, Load and Additional Purchases will be applicable at Scheme (Portfolio) Level.

Scheme characteristics:

Scheme characteristics such as Investment Objective, Asset Allocation Pattern, Investment Strategy, risk factors, facilities offered and terms and conditions including load structure will be the same for the Regular Plan and the Direct Plan, except that:

- No exit load shall be charged for any switch of investments between Regular Plan and Direct Plan within the same Scheme. The applicable exit load, if any, will be charged for redemptions/ switch outs of the Scheme (i.e. at portfolio level) before the completion of the stipulated load/ lock-in period. The stipulated load/ lock-in period will be reckoned from the date of allotment of units for a particular transaction in the Scheme (i.e. at portfolio level) till the date of redemption / switch out from that scheme, irrespective of the number of intra-scheme switches by the investor between the aforementioned two dates (e.g. switches between plans/sub-plans/options/sub-options within the Scheme having the same portfolio)
- The extant provisions of applicability of load on redemptions/ switches from one Scheme to another will continue to be applicable.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

Applicable NAV and allotment of units:

The provisions of applicability of NAV and allotment of units will be same for Direct and Regular Plan.

Eligible investors / modes for applying: All categories of investors (whether existing or new Unitholders), as permitted under the SID of the Scheme, are eligible to subscribe under Direct Plan. Investments under Direct Plan can be made through various modes offered by the Mutual Fund for investing directly with the Fund and all other Platform(s) where investors' applications for subscription of units are routed through SEBI registered Investment Advisors.

How to apply:

- a. Investors subscribing under Direct Plan of the Scheme will have to indicate "Direct Plan" against the Scheme name in the application form/ transaction slip e.g. "JM Midcap Fund (Direct)".

However, in the event of the Investor having failed to mention the plan clearly, the following Default Plan will be captured for the investment under the scheme.

- b. Investors may also indicate "Direct" in the ARN column of the application form/ transaction slip. However, in case Distributor/ Sub- broker code is mentioned in the application form, but "Direct Plan" is indicated against the Scheme name or in any other place or in any manner whatsoever in the Application Form/ transaction slip, the Distributor/ Sub-broker code will be ignored and the application will be processed under Direct Plan.

- c. In case of Systematic Transfer Facilities which were registered with a Distributor Code under the Regular Plan prior to the Effective Date, the future installments under the said Facilities shall continue as under the Regular Plan

In case such investors wish to invest under the Direct Plan through these facilities, they would have to cancel their existing enrolments and register afresh for such facilities.

Redemption requests: Where Units under the Scheme are held under both Regular and Direct Plans and the redemption / Switch request pertains to the Direct Plan, the same must clearly be mentioned on the request (along with the folio number).

In the event of the investor not clearly mentioning the name of the Plan (Regular or Direct)/ Option/ Sub-option/or wherever there is

an ambiguity in choice of Plan (Regular or Direct)/ Option/ Sub-option opted for in the request for redemption/switch-out of all/ specified amount/units, in the absence of clarificatory letter from the investor on the day of the transaction, the AMC/ Registrar reserves the right to process the redemption/switch out request from the Regular Plan or Direct Plan if such redemption request can be processed in totality. In such case, the redemption will first be effected from the Regular Plan.

E.g. If an investor has investment of Rs. 5 lakh in an Regular Plan and Rs. 10 lakh in the Direct Plan and a redemption request is received from him for redemption of Rs. 2 lakh without indicating which Plan the redemption is to be effected from, the AMC/ Registrar will effect the redemption from the Regular Plan. In the same example, if the redemption request was for Rs. 7 lakh, the redemption would be effected from the Direct Plan. However, in case it is not possible to effect the redemption from any one of the Plans in totality i.e. either from the Regular or from the Direct Plan, such redemption request will be treated as void ab-initio and rejected.

E.g. If the redemption request in the above example is for Rs. 12 lakh, the AMC / Registrar will summarily reject the redemption request. Where units are held under any one i.e. under Regular or Direct Plan, the redemption will be processed from such Plan.

Tax consequences: Switch / redemption may entail tax consequences. Investors should refer to the tax paras set out elsewhere in the document as well as consult their professional tax advisor before initiating such requests.

Exchange Platforms:

SEBI vide its Circular No. SEBI/IMD/CIR No. 11/183204/2209 dated November 13, 2009 had facilitated transactions in Mutual Fund schemes through the stock exchanges infrastructure. Also, vide Circular No. CIR/ IMD/DF/17/2010 dated November 09, 2010, SEBI had permitted routing of Mutual Fund transactions through the clearing members of the registered stock exchanges and Depository Participants of registered Depositories.

In view of this and in order to increase the network and enhance the level of service to the investors of JM Financial Mutual Fund, the Boards of JM Financial Asset Management Limited (the "AMC") and JM Financial Trustee Company Private Limited (the "Trustees") decided to offer an alternate platform to facilitate purchase (subscription) and redemption (repurchase) of units of all the eligible schemes of the Fund. This facility is offered in terms of the aforesaid SEBI circular and the guidelines issued by National Stock Exchange of India Ltd. (NSE) and Bombay Stock Exchange Ltd. (BSE).

Following are the exchange platforms through which investors can subscribe/ redeem the units of certain schemes:

- 1 BSE StAR MF Platform introduced by BSE (Bombay Stock Exchange)
- 2 NSE (National Stock Exchange) Mutual Fund Platform
- 3 NMF-TM (For Demat transactions being used by Trading Members of NSE)
- 4 NMF-Distributors (For Non-Demat transactions being used by Non-trading Members / Mutual Fund Distributors)

1. Features of the Exchange Platforms introduced by BSE, and NSE:

The eligible/trading Members/Brokers and MFDs (Mutual Funds Distributors) are authorised to place the transactions on the Online Mutual Fund Platforms made available by these Stock and Commodity Exchanges of India.

I. Who can avail of this facility and is it available for all modes / options of investment?:

The AMC accepts all the permissible financial transactions as are offered by respective Exchange Platforms to any of set of categories

of investors as mentioned elsewhere in the Scheme Offer Documents (SID) & Scheme Additional Information (SAI) . However, this facility is not available to Non Resident Indians/ Persons of Indian origin / Overseas Citizen of India from USA, Canada and other Persons / entities / foreign citizens etc. mentioned in the Scheme Information Document (SID) under "Who cannot invest" under the head "UNITS and OFFER".

These Exchange Platforms are also declared as the Point of Acceptance by JM Financial Mutual Fund for the purpose of time-stamping the financial transactions in terms of relevant provisions of SEBI Regulations. Hence, these Exchange Platforms shall act as the Point of Acceptance only for the purpose of time – stamping of the transaction and reporting thereof to the RTA/Mutual Fund subject to the transfer to funds to the Scheme's Account of the Mutual Fund before the stipulated cut-off time. Accordingly, all the authorised offices of these Exchanges shall be considered as the Official Points of Acceptance (OPA) of the Mutual Fund in accordance with SEBI Circular No. SEBI/IMD/ CIR No.11/78450/06 dated October 11, 2006 and conditions stipulated in SEBI Circular dated November 13, 2009.

These Exchange Platforms have been designed to provide a confirmation slip of the order(s) entered, which would be deemed to be the time of receipt of application for the purpose of determining the applicability of NAV. However, due to operational reasons , the Exchanges may set-up their own cut-off time which may be earlier to the SEBI stipulated cut-off for the day for smooth and timely movement of Funds & Transactions feeds to the RTA/JM Financial Mutual Fund for processing with applicable NAVs, on day to day basis

II. Whom should the investor approach for transacting in units of the eligible schemes of the Mutual Fund?

The investor has to approach a trading member of NSE, BSE who is registered with Association of Mutual Funds in India (AMFI) as Mutual Fund Advisors and who is empanelled as a distributor with the AMC and also registered with NSE and BSE as Participants ("AMFI certified stock exchange brokers") for MFSS and BSE StAR Platform.

SEBI vide its Circulars No. CIR/MRD/DSA/32/2013 dated October 4, 2013 and CIR/MRD/ DSA/33/2014 dated December 9, 2014, has permitted Mutual Fund Distributors (MF Distributors) to use National Stock Exchange (NSE) and Bombay Stock Exchange (BSE), recognized stock exchange infrastructure for transacting units directly from Mutual Fund/ Asset Management Companies on behalf of their clients.

Pursuant to the above, the following guidelines shall be applicable for transactions executed in the Schemes of the Fund through MF Distributors via the Stock Exchange Mechanism offered by BSE:

1. MF Distributor registered with Association of Mutual Funds in India (AMFI) and who has been permitted by the Exchanges will be eligible to use their platform to purchase/redeem/ switch units of the eligible Scheme, on behalf of their clients, directly from the Fund through online - non-demat mode and/ or demat mode.
2. MF distributors shall not handle pay - out/pay - in of funds as well as units on behalf of the investor/ AMC. 'Pay - in' will be directly received from the investor's account by the respective Clearing Corporations of the Exchange concerned i.e. Indian Clearing Corporation Limited (ICCL) for BSE and National Securities Clearing Corporation (NSCCL) for NSE, through any of the payment modes i.e Cheque/ Demand Draft (DD), RTGS/ NEFT, Netbanking, OTM (One Time NACH Debit Mandate) or any other authorized Banking Channels . The 'Pay - out' will be directly made to the investor by the Registrar/AMC, for non-demat mode. For demat mode, the pay- out for redemption

will be directly made to the respective Clearing Corporation.

The Investors will be able to purchase/redeem/switch the units in the aforesaid scheme in the following manner. The switch transactions will be split into 2 by treating switch-out as redemption and switch-in as the purchase.

Purchase of Units:

- The investor who chooses the physical mode is required to submit all requisite documents along with the purchase application to the Participants/Brokers/Trading Members (subject to applicable provisions of the Exchange).
- The Participants/Brokers/Trading Members shall verify the application and documents for mandatory details and KYC compliance.
- In case of non- demat mode, the Registrar will intimate the allotment details to the investor directly by emailing/issuing the physical statement of accounts or through the monthly Consolidated Account Statement (CAS).

b) Demat form:

- The investors who intend to deal in depository mode are required to have a demat account with CDSL/NSDL and have to provide their depository account details to the Participants/Brokers/Trading Members .
- The investor who chooses the depository mode is required to place an order for purchase of units (subject to applicable limits prescribed by the Exchange) with the Participants/Brokers/Trading Members

In line with regulatory requirements, the amount invested during the NFO period shall be invested in TREPS instruments till the closure of the issue. On the date of allotment, the invested amount plus accruals arising out of the investment in TREPS will be allocated between the source scheme and target scheme.

For further details of integrated STP (iSTeP), kindly refer to the details mentioned in the Scheme Information Document of the Scheme.

Switching Options: Unitholders under the Scheme have the option to switch part or all of their unit holdings in the Scheme to another Scheme established by the Fund, or within the Scheme from one Plan to another, which is available for investment at that time. This option will be useful to Unitholders who wish to alter the allocation of their investment among the Scheme/Plan(s)/Options of the Fund in order to meet their changed investment needs.

The switch will be effected by way of a redemption of Units from the Plan/Option and a reinvestment of the net redemption proceeds in the opted Plan/Option of the other Scheme and accordingly, to be effective, the switch must comply with the redemption rules of the switching-out Scheme and the issue rules of the other switching-in scheme (for e.g. as to the minimum number of Units that may be redeemed or issued, exit load, stamp duty, taxes etc). The price at which the Units will be switched out of the Plan will be based on the Repurchase Price, and the proceeds will be invested in the opted Plan/ Option of the other Scheme at the prevailing terms and sale price for units in that scheme/plan/option. The switch - out from one scheme to another scheme (i.e. requiring change in portfolio) will be effective only after the switch - out scheme has received the funds in the Scheme. Accordingly, the applicability of NAV will be dependant on the SEBI guidelines.

Subject to necessary approvals (if any) from the Regulatory authorities and any other approval as applicable, tax deduction at source, if any, will be effected at the appropriate rate in case of a switching by NRIs/FPIs and the balance amount would be utilized to exchange units to the other Scheme.

Identification of Beneficial Ownership:

KYC PROCESS

Pursuant to SEBI Circular No. MIRSD/ Cir-26/ 2011 dated December 23, 2011, SEBI (KYC Registration Agency) Regulations, 2011 and SEBI Circular No. MIRSD/SE/Cir-21/2011 dated October 5, 2011, in-order to implement uniform KYC norms and eliminate duplication of KYC across SEBI registered intermediaries in the securities market, KYC registration is centralized through KYC Registration Agencies (KRA) registered with SEBI. Thus each investor has to undergo KYC process only once in the securities market and the details would be shared with other intermediaries.

1. New investors are requested to use the revised common KYC Application Form with specified documents as set out in the form and carry out the KYC process including In-Person Verification (IPV) with any SEBI registered intermediaries including mutual funds. The revised common KYC Application Forms are also available on our website www.jmfinancialmf.com.

The Mutual Fund shall perform the initial KYC of its new investors and may undertake enhanced KYC measures commensurate with the risk profile of its investors. The Mutual Fund shall upload the details of the investors on the system of the KYC Registration Agency (KRA). KRA shall send a letter to the investor within 10 working days of the receipt of the initial/updated KYC documents from the Mutual Fund, confirming the details thereof.

2. It is mandatory for intermediaries including mutual funds to carry out In- Person Verification (IPV) of its new investors from the Effective Date. The IPV carried out by any SEBI registered intermediary can be relied upon by the Mutual Fund. The AMC or NISM/AMFI certified distributors who are KYD compliant are authorized to undertake the IPV for Mutual Fund investors. Further, in case of any applications received directly (i.e. without being routed through the distributors) from the investors, the Mutual Fund may rely upon the IPV (on the KYC Application Form) performed by scheduled commercial banks.
3. Once the investor has done KYC as per the revised process with a SEBI registered intermediary, the investor need not undergo the same process again with another intermediary including mutual funds. However, the Mutual Fund reserves the right to carry out fresh KYC of the investor.
4. The AMC reserves the right to reject application forms for transactions in units of the Mutual Fund not accompanied by letter/ acknowledgement issued by KRA. The KYC compliance status will be validated with the records of the KRA before allotting units.

5. Existing KYC compliant investors of the Mutual Fund, who have completed the KYC process prior to January 01, 2012, can continue to invest as per the practice prevalent prior to the effective date. However it will not be applicable for investments in securities market..

Note: The above change in relation to KYC process shall be applicable in respect of all investment applications (including MICRO SIP) by new investors made on or after January 01, 2012.

All investors (Individuals or Non Individuals) who wish to make an investment in a mutual fund scheme through purchase or switch via a Lumpsum amount or via a Systematic Plan (SIP/STP) (including MICRO SIP) will be required to complete the KYC process. This one-time verification is valid for transactions across all mutual funds. Submission of KYC acknowledgement is mandatory for the following :

- All unit holders (including joint holders) i.e. Resident & Non resident Individuals
- All Non Individual unit holders
- HUF and its Karta
- Guardian of Minor
- Power of Attorney holder
- Financial Institutions to whom the units of Mutual Fund are pledged.
- PAN Exempted cases (provided sufficient documentary evidence in support of such claims is submitted) :
- In case of transactions undertaken on behalf of Central Government and/or State Government and by officials appointed by Courts e.g. Official liquidator, Court receiver etc.
- Investors residing in the state of Sikkim
- UN entities/multilateral agencies exempt from paying taxes/filing tax returns in India
- MICRO SIP

Point of Service (POS) of the intermediaries will accept KYC Application Forms along with the necessary documents as set out in the KYC form (including originals if the copies are not attested) verify documents, conduct In-Person Verification (IPV) and provide the KYC Acknowledgement (across the counter on a best effort basis). KYC application and necessary documents as set out in the form should be submitted along-with Financial Transactions to any branch of the AMC. The KYC form after completion of IPV process can also be submitted to the Investor Service Centre of Registrar & Transfer Agent along-with Financial Transactions.

- Individual (including NRI / PIO) & Non Individual investors will have to produce Proof of identity, Proof of Address and other mandatory documents as set out in the KYC Application Form.
- NRIs/PIOs, in addition to the certified true copy of the passport will also be required to furnish certified true copy of the overseas address and permanent address. If any of the documents (including attestations/ certifications) towards proof of identity or address is in a foreign language, they have to be translated to English for submission. The documents can be attested, by the Consulate office or overseas branches of scheduled commercial banks registered in India. A PIO, in addition, will also be required to submit a certified true copy of the PIO Card.

The documents submitted as per the above process by the investor to the Point of Service of the Intermediaries would be forwarded to the KRA. The KRA on receipt of documents from Intermediaries would send a confirmation to investors.

Once the investor has completed the KYC process as per the revised guidelines with a SEBI registered intermediary from any KRA, the investor

need not undergo the same process again with another intermediary including Mutual Funds. However, the Mutual Fund reserves the right to carry out fresh KYC of the investor. The investor needs to produce a copy of the confirmation letter received from KRA when investing for the first time with a Mutual Fund for fresh investments or additional purchases in an existing folio as per the aforesaid requirements or till his KYC status is updated successfully as per the new revised KYC norms.

Existing KYC compliant investors of the Mutual Fund, who have completed the KYC process prior to January 01, 2012, can continue to invest in Mutual Fund schemes as per the current practice i.e. by submitting along with their Financial Transaction the KYC acknowledgement issued prior to January 01, 2012 by CVL on behalf of all Mutual Funds. However it will not be applicable for investments in other securities markets. These investors, in case they wish to deal with any SEBI registered intermediary other than mutual funds, will have to follow the new KYC procedure.

An existing investor can inform the Mutual Fund to update the KYC Acknowledgement against all the folios/accounts held by him with the respective Mutual Fund. However, each of the holders in these folios/accounts should be KYC Compliant.
